Introduction to our fees and interest

What is covered in this booklet?

We're talking about the fees that you might need to pay when you use certain services if you have:

- A current account.
- An overdraft.

You'll see a list of the most common fees and charges in our separate Fee Information Document.

This booklet is part of your terms and conditions for your account with us. You might find it helpful to keep it with your bank statements and use it to plan ahead and avoid being charged fees.

What types of fees do we have?

You'll have to pay a fee if:

- You have a current account with a monthly fee.
- You make certain payments from your account, such as making a debit card payment in a foreign currency or making an international payment.
- You use other services, like ordering a copy of a statement.

These fees are all explained in this booklet.

If you want to use a service that we haven't covered here, we'll always let you know beforehand if you're going to be charged.

What does monthly billing cycle mean?

- This is the period of time that we use to work out any fees and interest that you need to pay us.
- For most accounts, the monthly billing cycle is from the second of the month, to the first of the next month. For example, it would be from 2 May to 1 June.
- You can check what your monthly billing cycle is by asking in branch or calling us on **03459 758 758**.

When do fees come out of your account?

We take different fees from your account at different times. The table below explains more.

Type of fee	When is it taken from your account?	
Monthly fee (this fee is for Spend & Save Plus and added value accounts only)	<ul style="list-style-type: none"> At the end of your monthly billing period. If your monthly billing cycle is from the second of one month to the first of the next, these fees will be taken on the first of each month. If you change an account or service with a regular fee part way through your billing period, you'll only pay for the time you've actually had it. 	
Arranged and Unarranged Overdraft interest	<ul style="list-style-type: none"> At the end of your monthly billing period. This will usually be on the first of each month. We'll tell you at least 14 days before interest is taken from your account. 	
Fees for using your debit card abroad Fees for making a debit card payment in a foreign currency	At the time you use the service.	
CHAPS payments		
International payments	Making an international payment from your account.	At the time you make the payment.
	If an international payment is made into your account.	At the time you receive the payment into your account.

Can we change our fees? Yes. We can change any of our fees. For more information about this, and when we'll tell you about any changes, please see section 10 of the Personal Banking terms and conditions.

Overdrafts

What type of overdraft can you have?

We offer two types of overdraft:

- An Arranged Overdraft is when you ask us for an overdraft before you need the money. If we give you an Arranged Overdraft, we'll set a certain limit for you.
- An Unarranged Overdraft is when we decide to lend you money to pay for something without you applying for an overdraft first. You're asking for an Unarranged Overdraft if you try to pay for something when there's not enough money in your account or you spend more than the limit on your Arranged Overdraft (if you have one).

Can you have an overdraft?

You must be 18 or over to ask us for an overdraft. You can only apply for an overdraft if you have a current account.

All of our overdrafts are repayable on demand. This means that we can ask you to repay some or all of your Arranged or Unarranged Overdraft at any time. If you don't, this could affect your credit rating and your ability to borrow money in the future.

Overdrafts are subject to application and status. This means that we check your personal circumstances when you apply for an overdraft, to see if you can have one with us.

Please remember, we can't always give you an overdraft.

For more information about our overdrafts, see section 9 of the Personal Banking terms and conditions.

For more information about our overdrafts please visit **tsb.co.uk/current-accounts/overdrafts**

Arranged Overdrafts

What interest rate applies for using an Arranged Overdraft?

You only pay interest if you use your Arranged Overdraft over any interest free amount. Interest free amounts are explained on page 13.

There's no fee for setting up your Arranged Overdraft.

If you borrow more than your interest free amount, the interest rate in the table applies.

Interest on the amount you use

2.84% a month

39.9% EAR

All accounts

EAR is the Equivalent Annual Rate. This is the actual annual rate of an overdraft. It doesn't take into account fees and charges. Overdraft interest rates are variable. This means that they can go up or down. For more information, see section 10 of the Personal Banking terms and conditions where we tell you about changes to interest rates.

Arranged overdraft interest free amounts.

Some of our current accounts have an Arranged Overdraft which offers an interest free amount.

This means that you won't pay any interest if you use an Arranged Overdraft up to that interest free limit.

You need to apply for an Arranged Overdraft (and then we need to agree to give you one) to have an interest free amount.

The table on the next page tells you what the interest free amount is for each of our current accounts.

Unarranged Overdrafts and refused payments

What is the maximum monthly charge?

To make comparing bank accounts easier for you, banks and building societies have set a maximum monthly charge. Each bank may charge a different amount, but all banks explain this to their customers in the same way, with the same wording. This wording is in the box below.

We'll never charge you more than £30 each monthly period for interest charged on the amount you borrow using an Unarranged Overdraft.

The maximum monthly charge doesn't include interest we charge for Arranged Overdrafts.

Monthly cap on unarranged overdraft charges

1. Each current account will set a monthly maximum charge for:

- a. going overdrawn when you have not arranged an overdraft; or
- b. going over/past your arranged overdraft limit (if you have one).

2. This cap covers:

- a. interest and fees for going over/past your arranged overdraft limit;
- b. fees for each payment your bank allows despite lack of funds; and
- c. fees for each payment your bank refuses due to lack of funds.

– see page 20.

What interest will you pay for using an Unarranged Overdraft?

You'll pay interest on all money you borrow using an Unarranged Overdraft at the rate shown in the table for all accounts where you can have an overdraft.

If you have a Cash, Classic or Under 19s account we won't charge you Unarranged Overdraft interest.

See page 17 for more information.

Interest on the amount you use	
2.84% a month 39.9% EAR	All accounts

EAR is the Equivalent Annual Rate. This is the actual annual rate of an overdraft. It doesn't take into account fees and charges. Overdraft interest rates are variable. This means that they can go up or down. For more information, see section 10 of the Personal Banking terms and conditions where we tell you about changes to interest rates.

Can you have an overdraft if you have a Cash, Classic Essentials or Under 19s account?

You can't have an Arranged Overdraft on one of these accounts.

In some rare circumstances, we may have to give you an Unarranged Overdraft. This might for example happen if you make a payment on a plane, and we can't check at the time whether you've got enough money to cover it. There maybe other circumstances where this happens.

Payments refused due to lack of funds.

Sometimes you might not have enough money to pay for a Direct Debit, standing order, cheque or future dated payment. If we don't give you an Unarranged Overdraft, you won't be able to make the payment.

We'll write to tell you we've not allowed you to use an Unarranged Overdraft and that the payment has not been completed.

How can you avoid paying interest?

Retry periods.

If there isn't enough money in your account to make a payment and it is refused due to lack of funds, our retry periods can help you make the payment. For Direct Debits, cheques, standing orders or future dated payments, we'll give you extra time to put money into your account so that we can make these payments.

The money needs to be immediately available to use. You could transfer money from another account you have with us by using Internet, Telephone or Mobile Banking, or the Mobile Banking App. Or, you could pay in cash over the counter in branch or transfer money from another bank account you have.

If you do pay enough money into your account, we'll make the payment.

What are our retry periods?

Payment that can't be made	How many times will we try to make the payment?
Future dated payment	<p>If there's not enough money in your account, the payment won't go through. We'll try four times to make it:</p> <ol style="list-style-type: none"> 1. Shortly after midnight on the due date (or the next working day if it's a non-working day). 2. Again early in the morning that same day. We'll usually try between 5am and 7am but sometimes we'll need to try slightly earlier than 5am or later than 7am. 3. Again after 2.30pm that same day. 4. Shortly after midnight the next working day after we first tried to make the payment. If it still doesn't go through after the fourth try, it won't be paid (it is refused due to lack of funds).
Standing order	<p>If you don't have enough money in your account to pay a standing order three times in a row, we'll cancel it. For example, if you have a monthly standing order and don't have enough money to pay it three months in a row, we'll cancel it after this happens.</p>
Direct Debit	<p>If there's not enough money in your account, the payment won't go through. We'll try three times to make it:</p> <ol style="list-style-type: none"> 1. Shortly after midnight on the date the organisation you've set the Direct Debit up with has tried to collect it. 2. Again early in the morning that same day. We'll usually try between 5am and 7am but sometimes we'll need to try slightly earlier than 5am or later than 7am. 3. Again after 2.30pm that same day. If it still doesn't go through after the third try, it won't be paid (it is refused due to lack of funds).
Cheque	<p>If there's not enough money in your account, the payment won't go through. We'll try three times to make it:</p> <ol style="list-style-type: none"> 1. Shortly after midnight on the working day after your cheque is paid into the other person's account. 2. Again early in the morning that same day. We'll usually try between 5am and 7am but sometimes we'll need to try slightly earlier than 5am or later than 7am. 3. Again after 2.30pm the same day to allow for any transfers in, or deposits you have made. If it still doesn't go through after the third try, it won't be paid (it is refused due to lack of funds).

Grace period.

Our grace period means that you have until 10pm to pay money into your account to avoid paying any Arranged and Unarranged Overdraft interest. If you pay enough money in by then, you'll avoid paying Arranged and Unarranged Overdraft interest that we may charge that day.

The money needs to be immediately available to use. You could transfer money from another account you have with us by using Internet, Telephone or Mobile Banking, or the Mobile Banking App. Or, you could pay in cash over the counter at a branch, or transfer money from another bank account you have.

If you don't pay in enough money by 10pm, you'll be charged the Arranged or Unarranged Overdraft interest explained earlier in this booklet.

Balance Alerts and Text Alerts.

Our range of text alerts is a great way to stay up-to-date with your account. Text alerts help you to manage your account, make sure you have enough money to make any payments, and to avoid charges such as Unarranged Overdraft interest.

When you open a personal current account with us or give us a valid UK mobile number, you'll automatically be registered for certain text alerts. These include:

- An Arranged Overdraft alert when you go into an Arranged Overdraft.
- A Near Limit Alert when you have £50 or less available to spend in your account.
- An Over Limit Alert when you are over your account limit or when you do not have enough money to make a payment.

You can also register for our other text alerts to help you keep better track of your money wherever you are, such as:

- High and Low Balance Alerts when your balance goes above or below limits you set.
- Daily or Weekly Balance Alerts for your account balance, including details of your six most recent transactions.
- Overseas Transaction Alerts when your debit card is used abroad.

How do I customise text alerts?

You can change, pause or cancel your alerts whenever you want. For instance, you might be heading overseas and want to avoid being charged by your mobile operator for receiving texts.

You can do this by logging on to Internet Banking and clicking on Text Alerts on the right hand side under 'Your account tools'. From there you get the option to change or cancel your text alerts. You can also call us on **03459 758 758**, or visit us in branch.

Making a cash withdrawal in foreign currency from a cash machine or over the counter.

You can make a cash withdrawal if you have an ATM card or a debit card. You may pay fees for doing this. These are explained in the tables on pages 24 and 25.

Some terms explained.

Making a cash withdrawal in foreign currency means:

- A cash withdrawal in foreign currency from a cash machine or over the counter in the UK.
- A cash withdrawal in foreign currency outside the UK from a cash machine or over the counter.
- A cash withdrawal in pounds outside the UK.

Over the counter outside the UK means:

- In a bank in a foreign country.
- In a currency exchange in a foreign country.

We've a handy calculator to help you see the total cost of your currency charges (including the way we charge above the European Central Bank Exchange rate).

Visit **tsb.co.uk/currency-conversion-calculator**

When will the cash be converted into pounds?

When you use your card to make a cash withdrawal in foreign currency, the cash is converted into pounds. This normally happens on the day you withdraw the cash. The Personal Banking terms and conditions explain more about this.

When you use a cash machine to make a cash withdrawal in foreign currency, you can sometimes choose if you want the currency to be converted by us or the cash machine operator.

The exchange rate and charges you'll pay depends on which option you choose, and these are explained in the tables on pages 24 and 25.

How can you choose for the cash machine operator to convert the cash?

You can choose this by selecting the amount you want to withdraw in pounds (not the foreign currency) on the cash machine. Some cash machines won't allow you to do this.

If you don't choose this option, the conversion will be done by us.

Is it cheaper for us to convert the currency, or the cash machine operator or other bank?

When you want to withdraw foreign currency, we can't tell you which the cheapest option is. This is because we don't know what charges and exchange rates are used by the cash machine operator.

*You'll not be charged a non-pounds cash fee if you make a cash withdrawal in euros from a cash machine in an EEA country or Gibraltar. The EEA doesn't include the UK, so you'll be charged the non-pounds cash fee if you withdraw cash in euros in the UK.

**The ATM operator or foreign bank may charge a fee for cash withdrawals. Sellers may also apply a currency conversion fee, if you make a payment with your debit card and they do the conversion.

Real life example:

You withdraw the equivalent of £100 in a foreign currency at a cash machine and we do the conversion for you:

- If you withdraw dollars in the USA you'll pay the 2.99% non-pounds transaction fee (£2.99) and the 1.5% non-pounds cash fee (min. £2). Total fees £4.99.
- If you withdraw euros in France you'll only pay the 2.99% non-pounds transaction fee (£2.99). Total fees £2.99.

Debit card payments and other transactions in a foreign currency.

You can only buy things when you're abroad if you have a debit card. If you have an ATM card, you can't do this.

If you buy something when you're abroad, we'll charge you fees, unless you have a Spend & Save Plus account or a Gold, Platinum or Premier Added Value Account.

When will the currency be converted when you make a debit card payment in a foreign currency?

You can sometimes choose whether you want the currency conversion to be done by us or the seller you're buying something from.

For example, if you're buying something in a shop abroad, the exchange rate and charges you'll pay depend on which option you choose. These are explained in the table on the next page.

How can you choose whether TSB or the seller does the conversion?

If you want the seller to do the conversion, when you're paying you'll need to select the amount you want to pay in pounds (not the foreign currency). Some sellers won't allow you to do this.

Is it cheaper for us to do the conversion or the seller?

We can't advise you on this because we don't know what charges and exchange rates would be used by the seller.
